

Northeastern Indiana Regional Science Engineering Fair

March 18, 2017

<u>Name</u>	<u>School</u>	<u>Project</u>	<u>Location</u>
-------------	---------------	----------------	-----------------

High School

Biochemistry

Ibholm, Emily	Leo Junior/Senior High School	Pineapple Enzymes	135
Lang, Jaida	Leo Junior/Senior High School	Pineapple Enzymes	135

Biomedical & Health Sciences

Schweikert, William	Homestead Senior High School	The Power of Words Sung	138
Taylor, Olivia	Leo Junior/Senior High School	Which Bacteria Destroying Substance Kills the Greatest Amount of Bacteria	137

Chemistry

Livingston, Cameron	Leo Junior/Senior High School	Oxidation	136
---------------------	-------------------------------	-----------	-----

Earth & Environmental Sciences

Bussard, Brittany	Northfield Jr-Sr High School	Biomass Balancing Act	139
Nesler, Benjamin	Northfield Jr-Sr High School	Biomass Balancing Act	139

Engineering

Hartmus, Jessica	Bishop Luers High School	Molding Bricks, Molding Lives: Designing Technology Improvements to Brick Production for the People of the Fort Portal Region of Uganda - Year Two	140
Meruva, Pujeeth	Homestead Senior High School	A Coherent Communication System for the Deaf and Mute through Physical Motion Detection using Machine Learning	142
Spratt, Aaron	Ft. Wayne Area Homeschools	It's Water Under the Bridge	141

Material Science

Simcox, Olivia	Leo Junior/Senior High School	The Popcorn Predicament	134
----------------	-------------------------------	-------------------------	-----
