

Beginning Machining

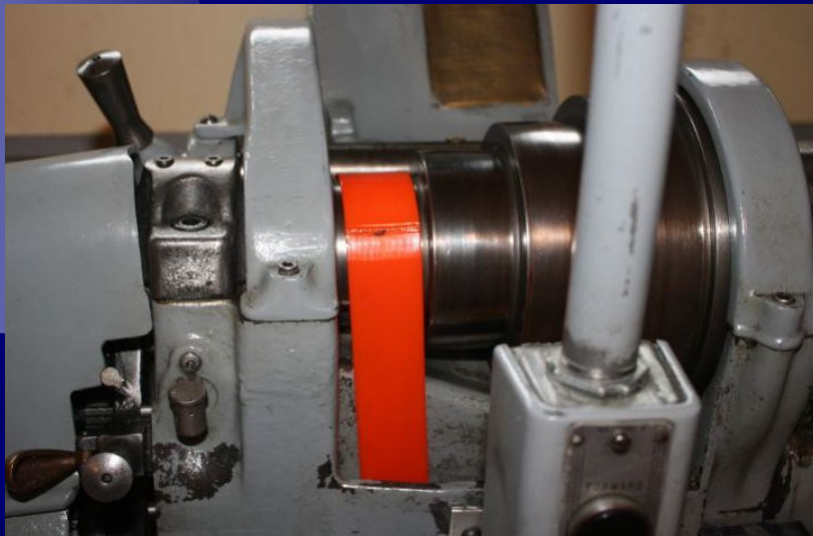

- Metal Lathes

Machine Layout

Machine Speeds

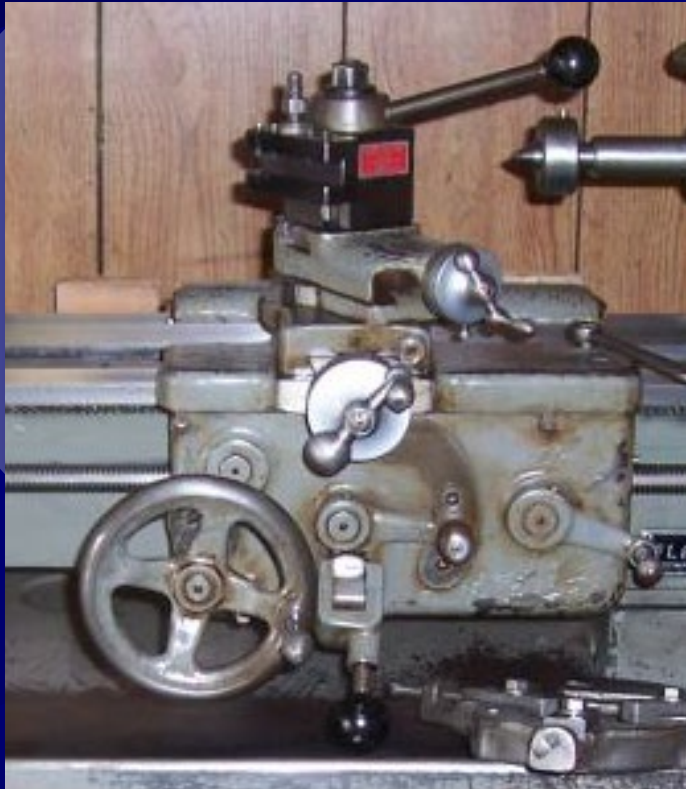

- Belt Drive vs Gear Drive

Spindle Reversing

Major Adjustments

Tool Holding

- Tool Posts
 - Rocker
 - 4 Way
 - Quick Change

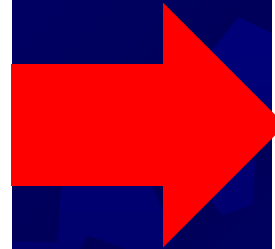

Work Holding

- Collet Closer
- Chucks
- Faceplate

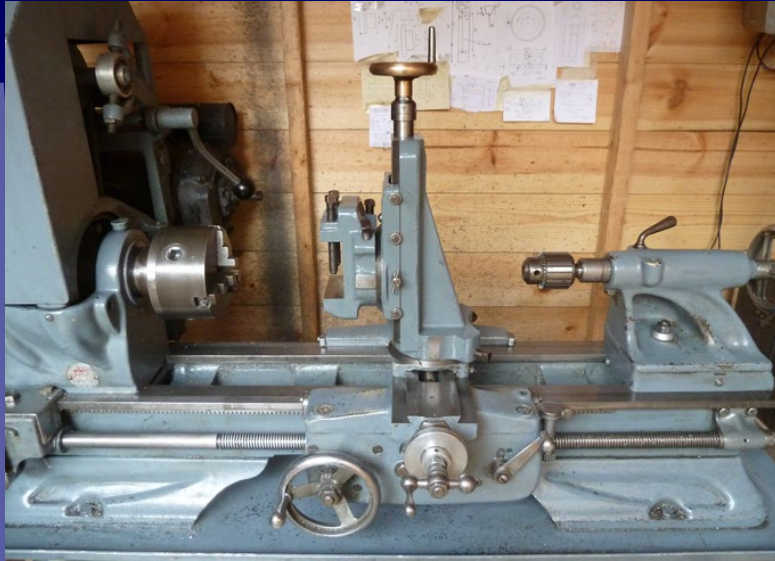

I am my own best friend...

A metal lathe is the only tool in the shop that can reproduce itself...

Additional Common Accessories

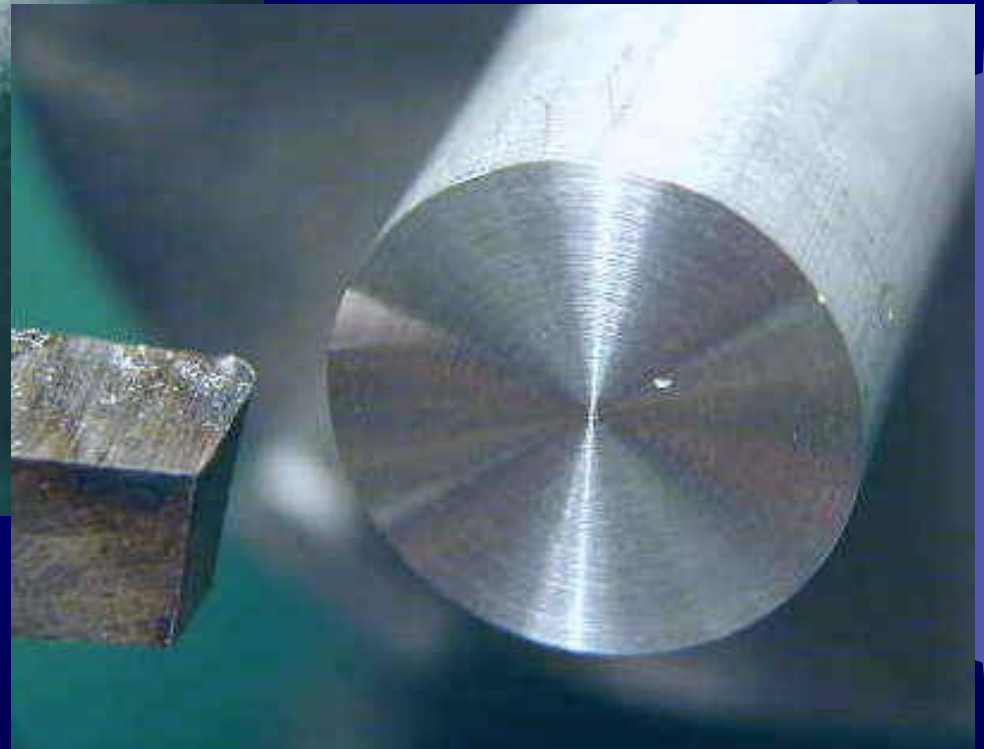

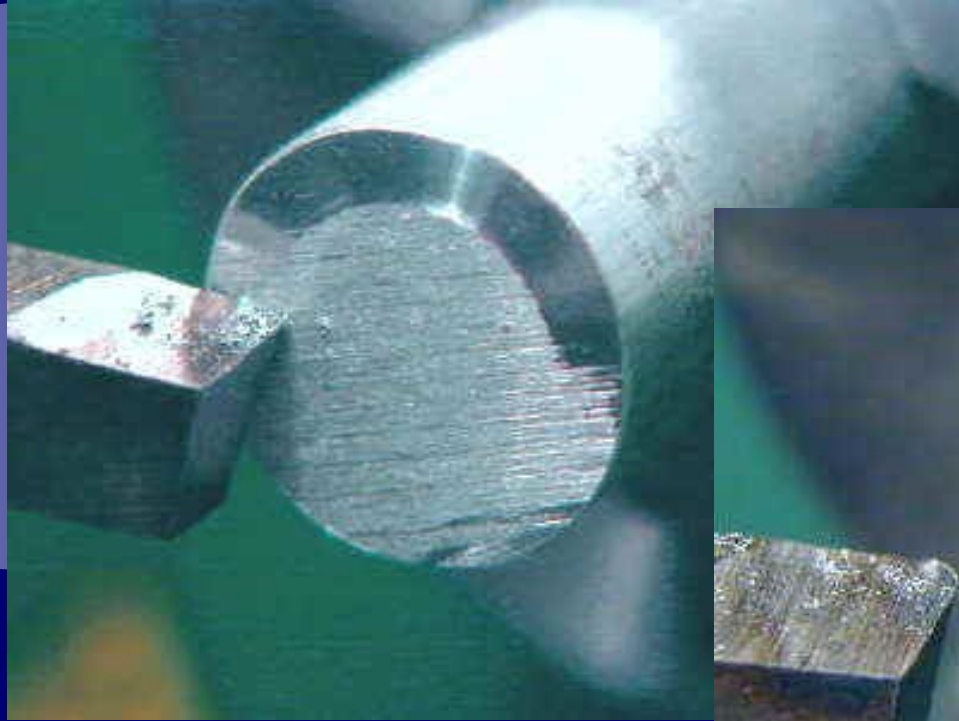

Milling Attachment

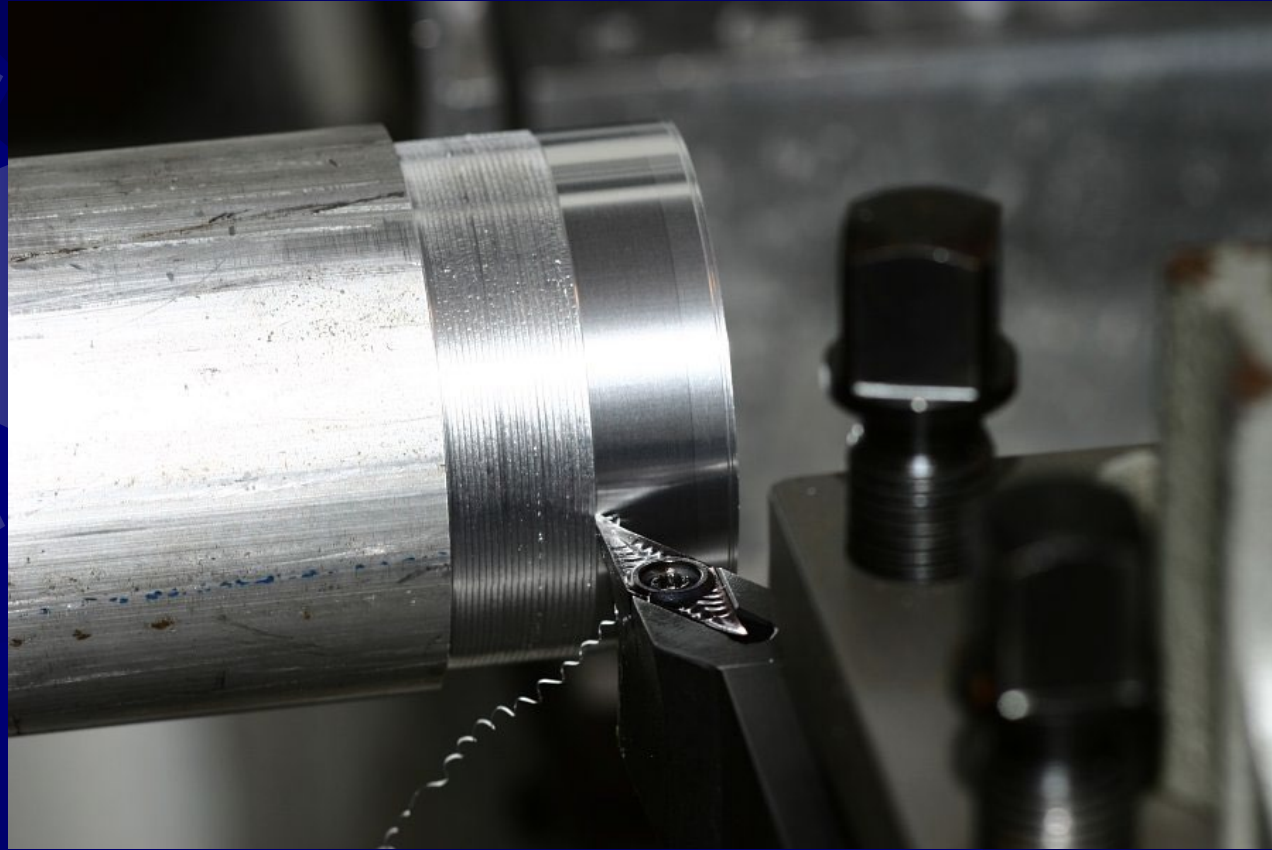

Taper Attachment

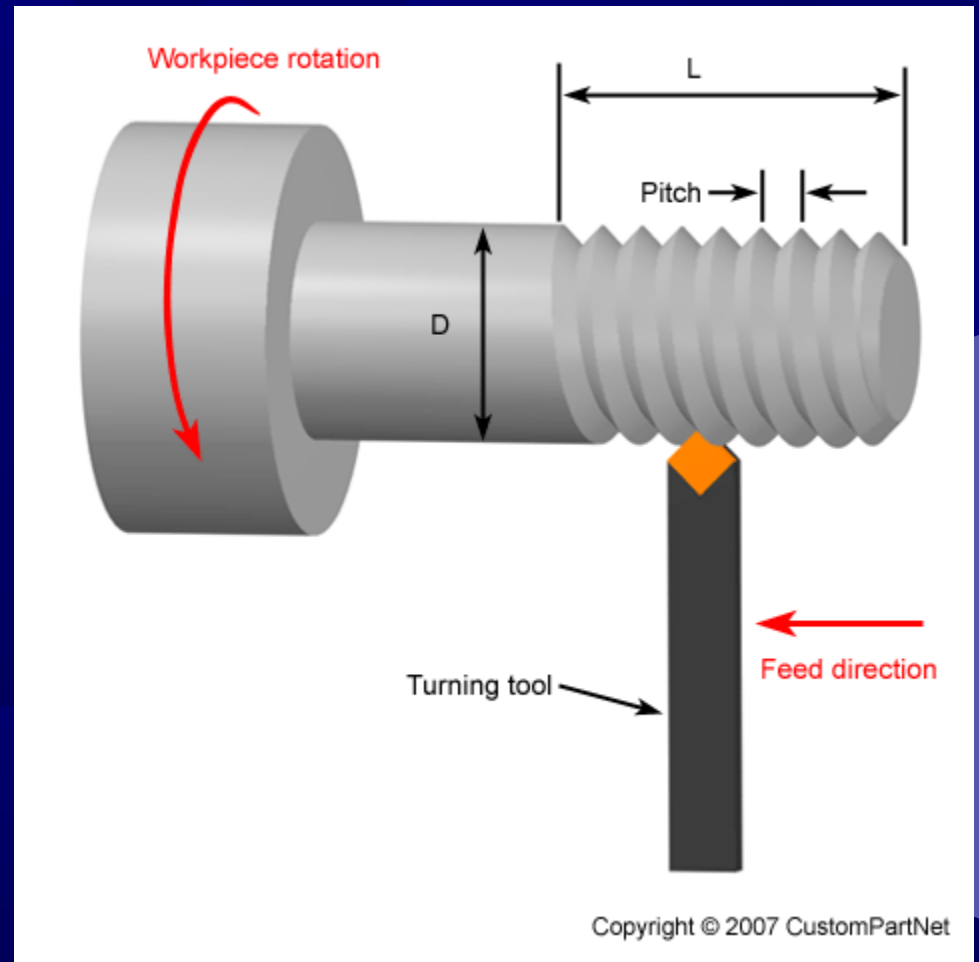

Facing

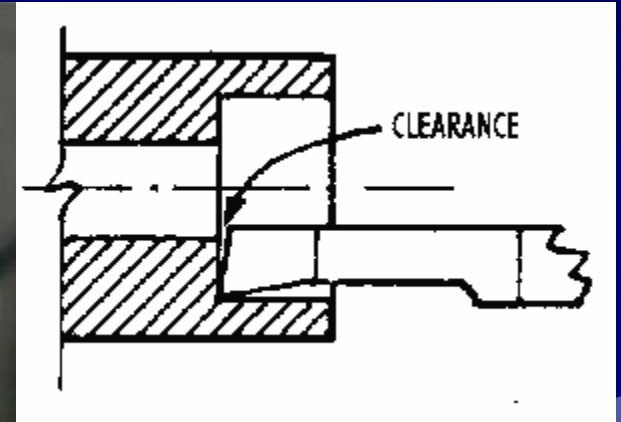

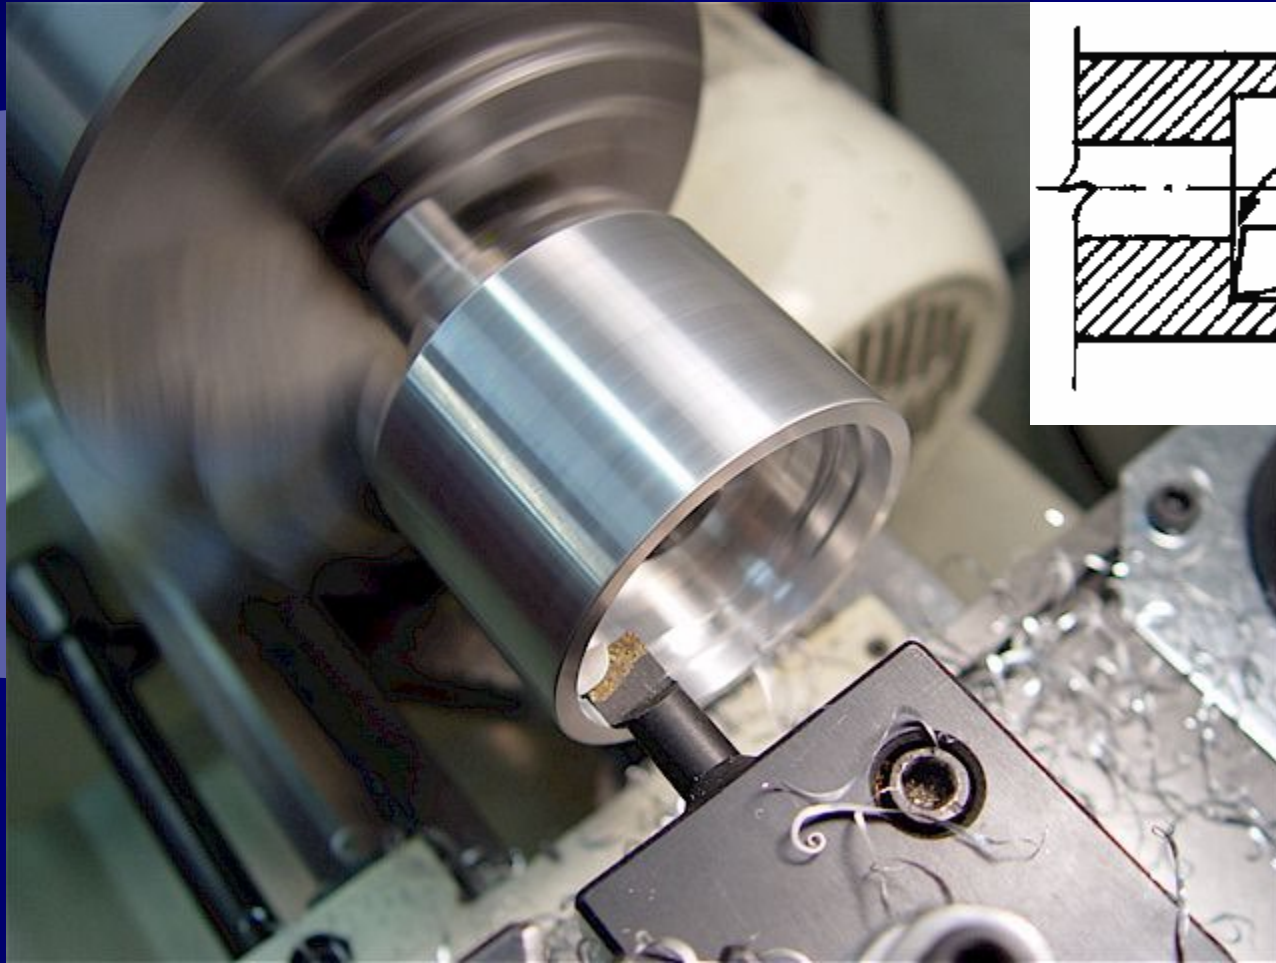

Turning

Threading

Boring

Parting/Grooving
