

<b>Course</b>	SE 59500 - Selected Topics in Systems Engineering
<b>Type of Course</b>	Elective for Systems Engineering
<b>Catalog Description</b>	Formal classroom or individualized instruction on topics of current interest. May be repeated for credit.
<b>Credits</b>	Cr. 1-3.
<b>Contact Hours</b>	Hours to be arranged
<b>Prerequisite</b>	Permission of Instructor
<b>Course Outcome</b>	An ability to understand and apply advanced concepts in selected or emerging areas of systems engineering, and to integrate this knowledge in analyzing and addressing complex engineering problems.
<b>Coordinator</b>	David S. Cochran, Ph.D.
<b>Date</b>	9/2/2025
