

## **ECE 59500 - Selected Topics in Electrical Engineering**

### **Type of Course**

Elective for the CmpE and EE programs

### **Catalog Description**

Formal classroom or individualized instruction on topics of current interest. May be repeated for credit.

### **Credits**

Cr. 1-3.

### **Contact Hours**

Hours to be arranged

### **Prerequisite**

Permission of Instructor

### **Course Outcome**

1. An ability to understand and apply advanced knowledge in selected or emerging areas of electrical and computer engineering, and to adapt this knowledge to analyze and solve complex engineering problems.

### **Coordinator**

Guoping Wang, Ph.D.

### **Date**

9/2/2025
