On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank.  [\(§205\(b\)\(1\)\(H\)\)](#)

### What are CIP Codes?

☐

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### What are CIP Codes?

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances.  [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

## Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.
- Yes

No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
- Yes

No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
- Yes

No

Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
- Yes

No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.
- Yes

No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.
- Yes

No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
- Yes

No
8. Describe your institution’s most successful strategies in meeting the assurances listed above:
- Purdue Fort Wayne provides strong pedagogy in addressing the areas listed above. Our candidates are trained in courses that specifically address these topics. In addition, each of our candidates receive hundreds of hours in multiple field experiences (and multiple settings) and student teaching that prepares them for addressing the needs of a diverse population of students.

# Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Report Progress on Last Year's Goal (2019-20)

1. Did your program prepare teachers in mathematics in 2019-20?

If no, leave remaining questions for 2019-20 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

Our goal for 2019-20 remained the same as the previous year of 2018-19. We hope to add at least 6 more students to our enrolled list of secondary education math students.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

## Review Current Year's Goal (2020-21)

7. Is your program preparing teachers in mathematics in 2020-21? If no, leave the next question blank.

- ☒ Yes  
☐ No

8. Describe your goal.

Our goal for 2020-21 will increase by one students. We hope to add at least 7 more students to our enrolled list of secondary education math students.

## Set Next Year's Goal (2021-22)

9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank.

- ☒ Yes  
☐ No

10. Describe your goal.

Our goal will be the same as last year. We hope to enroll at least 7 students to our enrolled list of secondary education math students.

# Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Report Progress on Last Year's Goal (2019-20)

1. Did your program prepare teachers in special education in 2019-20?

If no, leave remaining questions for 2019-20 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

19 students is our goal. Currently there are 28 students in the pipeline seeking a concentration or minor/dual license who have been admitted to the program.

3. Did your program meet the goal?

- ☐ Yes
- ☒ No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Our goal was 19 students enrolled in our Special Education program. We ended up enrolling 15. Admittedly, 19 was probably too high of a goal to expect. We did see a slight decrease in enrollment these past couple of years, perhaps due in part to the Covid 19 pandemic. We will lower our goal expectations for next year.

6. Provide any additional comments, exceptions and explanations below:

Each student in our elementary education program is required to select a specialized area to go with their major. Students have many choices when it comes to selecting a specialized area, including Special Education and English as a New Language. While we saw a decrease in the number of students choosing Special Education as their specialized area, we saw an increase in the number selecting English as a New Language. There is probably a correlation here.

## Review Current Year's Goal (2020-21)

7. Is your program preparing teachers in special education in 2020-21? If no, leave the next question blank.

- ☒ Yes  
☐ No

8. Describe your goal.

16 students is our goal of admitted students. This is one more student than we had enrolled in the previous year.

## Set Next Year's Goal (2021-22)

9. Will your program prepare teachers in special education in 2021-22? If no, leave the next question blank.

- ☒ Yes  
☐ No

10. Describe your goal.

16 students is our goal of admitted students. This is the same goal as the previous year.

# Annual Goals: Instruction of Limited English Proficient Students

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

# Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

## Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- ☒ Yes
- ☐ No

If yes, please specify the organization(s) that approved or accredited your program:

- ☒ State
- ☒ CAEP
- ☐ AAQEP
- ☐ Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- ☐ Yes
- ☒ No

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.  [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes
- ☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All of the School of Education courses integrate technology into curriculum and instruction. Technology offers many tools to manage, collect, and analyze data. Teachers use spreadsheets, tables and graphs to organize and use data to make curricular and instructional decisions. In addition, many data and intervention programs are used for these purposes. A survey of programs like AIMSweb, Plato and NWEA give education students an overview of tracking data and analysis. Several of these programs have a variety of reports that show progress and growth measures. Teacher candidates are using GoReact and other virtual technology programs to interact with faculty and acquire instructional skills as a bi-product of the COVID pandemic and the changes to traditional classroom instruction.

Provide the following information about your teacher preparation program.

## Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

1. Interview Paper with school personnel about services for students with disabilities 2. Research Paper on Mild/moderate disability referencing peer-reviewed journal articles, and professional organizations 3. Lesson plan adaptations for students with mild/moderate disabilities including research-based strategies

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

1. Class activities with information about IEP 2. Video discussion about IEP

c. Effectively teach students who are limited English proficient.

Early Childhood and Elementary candidate students are introduced to readings on ELL education, including the definition of English language learners, problems in current instruction of ELLs, instructional strategies that support the success of ELLs.... Students also learn how to put ELLs into different levels by using, for example, WIDA (Word-Class Instructional Design and Assessment). They also receive instruction on how to implement content-based sheltered English instruction such as Cognitive Academic Language Learning Approach (CALLA) and Sheltered Instructional Observation Protocol (SIOP). Some of the students have an opportunity to work with ELLs during their field experiences. For Secondary candidate students we focus on helping teacher candidates understand how to communicate effectively with ELL students and how to support language acquisition. So, with the first goal in mind, faculty introduce research-informed strategies for making lessons accessible to ELL students and mitigating the impact of the language barrier (i.e., using simple, clear language for instructions; adding personal gestures and illustrations; incorporating graphic organizers and other visuals; etc.). Candidates also learn about how they can support language acquisition. For example, they learn about the importance of fostering natural communication and meaningful interaction in the target language, supplying comprehensible input in low stress situations, and being a "gracious host" for ELL students rather than focusing on error correction. Naturally, candidates get to explore those ideas in the field as they work with ELL students in local schools.

2. Does your program prepare special education teachers?

☒ Yes

☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

1. Interview Paper with school personnel about services for students with disabilities 2. Research Paper on Mild/moderate disability referencing peer-reviewed journal articles, and professional organizations 3. Lesson plan adaptations for students with mild/moderate disabilities including research-based strategies 4. Develop an IEP using the state approved form and working with a real student 5. Multiple lesson plans on 2 different students with adaptations and research -based strategies. 6. Informal and formal assessments for students with disabilities 7. Assistive Technology strategies and devices 8. Functional Behavioral Assessments and Behavior Improvement plans 9. Collaboration activities with a variety of school personnel and

parents.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

During Field Experiences and Practicum participate with IEP teams as appropriate.

**c. Effectively teach students who are limited English proficient.**

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

SPECIAL NOTE: Due to the COVID 19 pandemic that closed down all Pearson Testing Centers for a number of months in Spring and Summer 2020, many students were forced to wait on taking their licensing exams. As a result, the students had fewer opportunities to retake their exams if they failed them on a previous attempt. We believe that this contributed to a lower than normal 71% Summary Pass Rate of exams. Purdue University Fort Wayne is an integral part of the Fort Wayne community. More than a source of higher education, PFW is a kaleidoscope of theatre, music, art, dance, sports, continuing education opportunities, and community resources. Every year, PFW hosts nearly 2,500 free events, from lectures and artistic performances to comedians and cook-outs. Through the Omnibus Lecture Series, local audiences experience nationally acclaimed lectures and performances. Sold-out crowds of music and theatre lovers thrill to the rich programs at the Rhinehart Music Center and the Williams Theatre, while art aficionados indulge in the continually changing exhibits at the Visual Arts Gallery. Sports fans love watching their favorite PFW teams compete in 14 NCAA Division I sports, and take pride in knowing that PFW produced two Olympic athletes in men's volleyball. PFW is a melting pot of resources to educate the mind and stimulate the spirit. Over 10,000 students find their place here at PFW, and get involved with endless opportunities.
