

NORTHEAST INDIANA **REGIONAL** SCIENCE AND ENGINEERING FAIR

Dear Regional Fair Judges,

Thank you for volunteering to judge at the 2023 Northeast Indiana Regional Science and Engineering Fair. Please see the information below for details regarding the fair this year.

NORTHEAST INDIANA REGIONAL SCIENCE AND ENGINEERING FAIR

Saturday, March 18, 2023

- 8:00 - 8:15** Judge Check-in: Walb Union, Room G-08 (downstairs across from the atrium)
- 8:10 - 8:15** Judge Welcome and Meeting: Walb Union, Rm. G-08 (coffee & pastries available);
- 8:15 - 8:30** General Judge Procedures: Grade/Category: Dr. Jay Daniel; Special Awards: Dr. Scott Bergeson
- 8:30 - 8:50** Lead Judge Meetings
- 9:00 - 12:00** Project Judging All Grades: International Ballroom
- *11:00 - 12:00** Grades K-3: Judge lunch and Deliberations, International Ballroom Kitchen
- 12:00-12:30** Grades 4-12: Judge Lunch; Grade Level Award Deliberations: Walb G-08 or IB Kitchen
- 12:45- 3:00** Lead Judges in Middle/High School Categories ONLY: final award deliberations in the Ballroom

*Time is approximate depending on each judging group's completion of judging and award deliberations.

JUDGE PROCEDURES Fair judges for grades/categories will be organized and guided by a Lead Judge. These judges will also be further divided into two-person judge "teams" within each grade/category and assigned a group of students to interview. Special award judges from sponsoring organizations will review the list of projects associated with their award and determine how to best divide up interviews.

K-3 JUDGING 9:00-11:00 There is one round of judging for grades K-3. Each K-3 judge team must complete all initial interviews of projects assigned to them before 11:00am. Each K-3 judge will complete a score sheet for their assigned projects and as a pair determine which superlative to award. Special award judges must also complete interviews before 11:00am, when students are dismissed back to their parent or caregiver.

4-12 ROUND 1 JUDGING 9:00-10:30 Each grade level, category, and special award judge team will strive to complete initial interviews of projects assigned to them (grade/category) or associated with a special award category (sponsored award judges). Each grade/Category judge will complete a score sheet for their assigned projects. Grade/Category Judge teams will rank projects and recommend the top one or two, as appropriate, to return in Round 2 for a second interview. If any project was not visited during Round 1 or if a student arrives for late judging, they will be interviewed in Round 2. Special award judges will also determine the projects they would like to revisit during Round 2 judging or to interview if they have not yet interviewed a project associated with their award.

4-12 ROUND 2 JUDGING 11:00-NOON Lead judges will provide guidance as to how grade/category judges should proceed in Round 2 judging. All judges must complete their judging by noon.

NORTHEAST INDIANA **REGIONAL** SCIENCE AND ENGINEERING FAIR

LUNCH

- **Special Award** judges may leave as soon as award winners are selected even if before noon.
- **K-3 Judges** meet during lunch from 11 to noon to finalize superlatives and determine grade level places.
- **Grade 4-5** Judges will meet over lunch at noon to deliberate and select award winners.
- **Category judges** will meet over lunch to determine the projects that are in contention for advancement.
- **Lead judges (4-12)** will remain *after* lunch for final deliberations.

GRADE 8 CATEGORY JUDGE MATERIALS Judges receive a name badge, clipboard, score sheets, schedule, and a diagram of student displays. The evaluation tools used to judge are the same as in previous years. Judges use a score sheet with a rubric associated with their divisions. Rubrics are important for achieving consistency between judging teams. Prior to the Regional Fair, please review rubrics, score sheets, and Tips for Judging sent by email. Copies are also located on the Regional Fair Website www.neirsef.org under "For Judges." Lead Judges will provide guidance about procedures and additional forms for ranking and award recommendations. Judges will receive their judging assignments when they arrive. All Lead Judges will report the results and share concerns/questions with the Grade/Category Judge Coordinator. During the Round 2 judging, when Category Lead Judges begin deliberation, Dr. Jay Daniel will facilitate the second portion of the judging process for the older divisions.

SPECIAL AWARD JUDGE MATERIALS Judges who represent a sponsoring organization will receive a name badge, judge ribbon, clipboard, display diagram, a list of student projects related to their award category, and a results sheet that describes your specific award. Each special award is assigned a number for the regional fair. The use of this number and the results procedure will be discussed on Saturday when Special Award judges meet with Dr. Scott Bergeson, Special Award Judge Coordinator.

FOR ALL JUDGES Dress is business casual. Judges may use Parking Garage 2: exit the door by the elevator, walk across into the inter-connecting walkway, and turn left toward Walb Student Union, Rm. 222. A campus map can be found at <http://www.pfw.edu>.

Thank you again for your volunteer time and sharing your expertise as a judge. If you encounter any difficulty attending, please contact me at my office or, on the day of the event, on my cell. We will count on seeing all of you on Saturday, March 18!

Sincerely,

Matthew Perkins Coppola, Ph.D.
Director, Northeast Indiana Regional Science and Engineering Fair
